Sir:

In reply to the Restriction Requirement dated **May 10, 2006**, Applicants hereby elect Group I, claims 1-18, 32 and 36, drawn to a vector for delivery of a virus to a target cell within a host animal consisting essentially of a cell-targeting ligand, which is a protein, peptide or hormone, non-covalently bound to said virus, wherein said ligand binds directly to a receptor on said target cell, and a method for preparing said vector, classified in classes 435 and 530, subclasses 320.1 and 350. Applicants reserve the right to pursue the non-elected claims in one or more divisional or continuation applications.

This election is made **with traverse**. For at least the reasons set forth below, Applicants respectfully contend that the Restriction Requirement is in error, and request that it be reconsidered and withdrawn.
